## Programs and Services

### Telecommunication Relay Service (TRS)

Relay operator services allows people with hearing loss to communicate effectively with others who do not have specialized telephone equipment, in a way similar to what a person with normal hearing and clear speech communicates with the telephone.

Telecommunication Equipment Distribution (TED) Specialized telephone equipment is available to eligible clients. Contracted trainers provide client training on how to use the equipment.

### Sign Language Interpreter Management (SLIM)

A statewide contract for interpreter services is available so that individuals using sign language can communicate with state government staff.

### Assistive Communication Technology (ACT)

A loan & referral service provides assistive listening device systems, real-time captioning and resources to other assistive technology.

### Communication Access Network (CAN)

Videoconferencing sites throughout Washington provide access to video relay services (VRS), and face-to-face interpersonal communication (P2P).

### Social and Human Services (SHS)

Non-profit Regional Service Centers of the Deaf and Hard of Hearing provides a variety of social and human services throughout Washington, including case management services.

## Information and Referral & Advocacy (IRA)

Provides information, referrals and resources to the general public and communities. ODHH advocates on behalf of individuals needing access to effective communication in state government.

## Outreach & Training (OT)

Outreach activities increase awareness about diversity and culture. Training activities provide knowledge and skills to effectively serve people with hearing loss through the provision of reasonable accommodations.

To request more information or obtain publications about the Office of the Deaf and Hard of Hearing and/or these programs & services, please contact ODHH at (800) 422-7930 Voice/TTY or email at [odhh@dshs.wa.gov](mailto:odhh@dshs.wa.gov).

Deaf-Blind Service Center\* (DBSC)

\*The Office of the Deaf and Hard of Hearing (ODHH) and DBSC have a contract to provide a new videophone service for Deaf-Blind users. The DBSC service enables Deaf-Blind people to access videophone calls using a “Communication Facilitator” (CF). CFs provides visual information to those unable to see the video screen or read visual ASL. The CFs can be used to make video relay service (VRS) and personal to personal (P2P) calls. The calls can be made using either of the following communication modes: tactile or close vision that will enable the deaf-blind users to successfully communicate using the videophone.
